General Information

GIKIST is a private university located in Topi, Khyber Pakhtunkhwa, Pakistan. It offers undergraduate and graduate programs in various fields, including engineering, sciences, and humanities. The university is known for its focus on research and innovation.

Admission Requirements

To be admitted to the Ph.D. program, applicants must meet the following requirements:

- A completed Master’s degree in a relevant field
- A minimum GPA of 3.0
- Results of a standardized test, such as the GRE or GMAT
- Relevant work experience or research publications

Program Outcomes

Upon completion of the Ph.D. program, graduates will be able to:

- Conduct independent research
- Develop innovative solutions to complex problems
- Communicate research findings effectively

Faculty Profile

The faculty at GIKIST is composed of experienced professionals with diverse expertise in various fields. They are dedicated to providing high-quality education and research opportunities.

Research Areas

GIKIST offers research opportunities in a wide range of fields, including:

- Electrical Engineering
- Computer Science
- Materials Science
- Biotechnology

Contact Information

Joint Election

Politics, NGOs and the Voter

Congresswoman Jackie Speier

Michael Honda (Congressman)

The recent Joint Election, involving the voting of NGOs, has been the center of attention in the Silver Spring area. The election saw NGOs vote on various political issues, including the funding of NGOs, their involvement in political campaigns, and their impact on the community.

Jackie Speier, a member of the House of Representatives, has been actively involved in lobbying for NGOs. She believes that NGOs can play a significant role in shaping public policy and has been working towards increasing their representation in the political process.

NGOs have argued that they have a unique perspective on political issues and that their input is necessary for a more inclusive and democratic process. However, some have expressed concern about the potential for NGOs to become too involved in politics.

The Joint Election is expected to continue in the future, with NGOs playing an even more significant role in shaping the political landscape.
