# Proclaim the bounties of Allah

When Allah said, "I will cause thy message to reach the corners of Earth", then Allah is doing much of the work Himself.

It is only God who is creating this spirit that the message of Ahmadiyyat and the philosophy of Islam is true.

Islam is destined to spread through the Promised Messiah (may peace be on him)

Training the children, imparting Islamic education and making them a useful being in the society is also part of our job.

Discharging neighbour's rights is a basic principle of Islam

May Allah help us to always absorb His blessings and enable us to fulfil His rights.

On the second day of the Jalsa in Britain, we relate Allah's countless blessings. Facts and figures of different departments are presented, progress of jama'at is reported.

Today as well, I will relate some of these happenings. They show how Allah moves the hearts of the people living in different countries.

Some are told the truth through dreams

A book or a piece of literature becomes the source of propagation

Opposition to Ahmadiyyat makes it spread

Sometimes the conduct and behaviour of Ahmadis attract others to Ahmadiyyat.

There are occurrences that show us the marvellous backdrops of the faith and belief in Ahmadiyyat of the people living in faraway places.

Regarding the training of the children, there is a remarkable change in their lives due to the acceptance of Ahmadiyyat or its company and people do feel it.

We are trying to propagate the true Islam under a system, but the fruition is a lot more than our efforts.

It is true that with reference to the Promised Messiah (peace may be upon him), spreading the message of Islam and opening the hearts of people for it is being done by Allah Himself.

When Allah said, "I will cause thy message to reach the corners of Earth", then Allah is doing much of the work Himself.

Every right-minded Ahmadi is cognizant of the fact that the progress of Ahmadiyyat is taking place not due to our efforts and resources but it is happening due to the blessings of Allah.

The missionary from Conakry, Guinea writes that a two-page leaflet has been distributed far and wide in the country.

We are receiving phone calls from far flung areas of the country that the people used to listen from their fore fathers about Imam Mahdi (peace be on him) and the Promised Messiah (peace be on him).

Now after reading your leaflet, we are eager to meet you because we feel that it is time now that the Muslim Ummah needs a reformer.

Leaflet just provided the contact but God had already prepared the hearts. The wise people feel that this is the age that needs a reformer, a messiah, a Mahdi.

**This is how due to God's blessing we came into contact with many people and they did Bai't and joined Ahmadiyyat.**

A missionary wrote from the Tanzania that during a Quranic exhibition a lady came to our stall.

After acquainting with the books, she bought a book that had content with reference to Christianity.

The same lady came next day with her husband, both in military uniforms as they were military personnel.

She had been married for a long time and was trying to educate her husband about Islam but could not get good enough material

about Islam to convert her husband. I bought a book and gave it to my husband. He got answers to many questions

The missionary had a long conversation with them and her husband and they both accepted Ahmadiyyat the true Islam after doing Bai't.

The burning desire to get husband converted to Islam attracted the blessing of God in such a way that she came there and both of them entered the fold of the true Islam.

It is not only in Africa that the messages are reaching via leaflets or propagation efforts or curiosity is limited to the people in Africa and third world. Our missionary here in Huddersfield, UK writes that leaflets were distributed in Barnsley town

After some time fifty English men and women rented a coach and came to our mosque to attain knowledge about Islam.

They were given a presentation about Islam and Ahmadiyyat and a Q/A session was held in a 2 ½ hour program.

Coming of the people here by themselves is a sign that Allah Himself is moving the hearts of the people.

On the one hand the Muslims themselves are bringing bad name to Islam resulting in non- Muslims' crossing the limits

and on the other hand Allah is stirring the atmosphere to attract the attention of people understand the real Islam.

We observe how Allah has strengthened the faith of masses in far flung areas of the world and created a sense of sacrifice in them.

Ameer of Benin writes that a new mosque was built in Sofo with the loving and selfless participation of men and women.

The local traditional President said that the mosque is the standard bearer of peace for the populace. The Chief declared the mosque to be the light tower and guide for the council of the area.

As the general public of the area belong to paganism, their chief who is also known as king, said that he was also a pagan before but due to Ahmadiyyat, now I believe in one God.

**He further declared that Ahmadiyya community is the embodiment of love and truthfulness and though I am a king, there is a great emperor above me whose worship is incumbent on all of us.**

It is only God who is creating this spirit that the message of Ahmadiyyat and the philosophy of Islam is true.

This is the real education and Islam that Ahmadiyyat is introducing and causing pagans to accept One God.

Another Muallam from Benin writes that during a radio program, they received a phone call from a man named Eric who invited us to visit his village

More than two hundred people did the Bai'at and a Jama'at was established.

Two days after the Bai'at, Eric's house wall fell down during a rain and wind storm, and his 8-month old child died under the wall.

The idol worshipers said to him that he started experiencing difficulties right after joining the Jama'at.

He replied that he believed in the truth, he will never retreat. He is Ahmadi and will stay Ahmadi till he dies. This is firmness of faith and devotion to Unity of God that is being entrenched in the hearts of the people through the Promised Messiah (peace may be on him).

He also gave a part of his land for Namaz centre and himself built a temporary structure to start the Quran classes. This is how Allah paves the ways to spread Islam.

The missionary from Burkina Faso states that this year they were able to build a beautiful mosque in Tenkodgo.

When Ahmadiyyat was introduced in that village, the people had done the Bai'at with their Imam.

At that time the opposing Maulvis offered to give their own beautiful mosque to them if they would abandon Ahmadiyyat.

They held on to Ahmadiyyat and at that time preferred their own modest mosque to the opponents' grand mosque built with Kuwaiti money.

Today they have a brick mosque built along the highway and the news has reached all the adjoining areas and the whole city. Many dignitaries, Imams and kings came at the inaugural ceremony.

The Islam that was destined to spread through the Promised Messiah (may peace be on him) and is spreading, cannot be seen anywhere else.

Then we see how Allah guides through dreams. San Pedro is a region in Ivory Coast. In a city of this region, a friend Zona Ahmad did Bai'at because of a dream.

He was a Christian before and after accepting Islam, joined the Wahabi sect. He relates that after accepting Islam, he learned prayers and started offering them in the mosque.

In the same period, he saw a saintly person twice in a dream. He further said:

The very first time I came to know in the dream that that was a prophet of God. I thought I was shown the Holy Prophet (may peace be upon him) in my dream.

Once again I saw in my dream the picture of the same person appearing on the T.V. and someone was reciting the holy Quran at the same time. Below the T.V. was written 'Mission Islamic Ahmadiyya' in French.

After this dream I asked about Ahmadiyya Jama'at from the Imam of the mosque. He told me that Ahmadis are not Muslims.

# He continues to relate

I got worried when I came home. Who are these Ahmadis that are being called 'non-believers' by the Imam? Then I prayed to God to show me the right path.

One day a friend of mine told that there was Ahmadiyyat in another city. I found my way to the mission house where missionary introduced me to Ahmadiyyat.

I was amazed to see the picture of the Promised messiah (may peace be upon him). I was told that the man in picture was the Mahdi and the Promised Messiah (peace be upon him).

I accepted Ahmadiyyat then and there and told the missionary that that was the saintly person I saw twice in my dream!" He told the missionary that he filled the Bai'at form then but actually he had accepted Ahmadiyyat

when Allah guided him in the dream. Now he has joined the donation system and prays regularly at home and offers Tahajjud as well. He is spreading the message in the area and to the Imam as well.

These are the works of Allah. This is how he is Guiding. On the other hand, there are people who are drowned in doubts because their intentions are not good.

Missionary-in charge from Belgium writes that a new convert Mr. Idrees who knew nothing about Ahmadiyyat when he saw a saint in a dream.

About two years ago when he was changing channels of the TV that he looked at the Al-Arabia MTA and saw the picture of the Promised Messiah (may peace be on him) and remembered his dream. He had seen the same saint in his dream.

He started watching MTA regularly and in this way he was inclined toward Ahmadiyyat. He found the address of the Jama'at himself, reached the Mission house and said that he wanted to do the Bai'at.

**When asked to investigate before the Bai'at, he said that he has already found the clarifications.**

**He further told that he was satisfied and did the Bai'at.**

Mali is a country in Africa. An elderly person came to the mission house there and told that he wanted to do Bai'at.

When the Murabbi sahib asked the reason for that he said, "Last night I was listening to your live radio program. Some people were cursing the Jama'at via live phone calls.

I prayed to God during the program to guide me toward the people who were right. I fell asleep while praying and saw in the dream that there was missionary in charge on one side and the opponents on the other side.

They are engaged in arguments. When the opponents could not answer the missionary, they throw him in a ditch and start pouring dirt on him.

At that time a saint appears from the sky and says that he was Mahdi and extending his hand saves the life of that missionary.

**Then I awoke and now I have no doubt about the truthfulness of Ahmadiyyat. That is why I have come to do the Bai'at".**

Training the children, imparting Islamic education and making them a useful being in the society is also part of our job.

This must be remembered by all the parents and by the system that training the children is a great responsibility given to them. It also opens new ways of Tabligh and training for us.

In Sierra Leone in the Bo Jama'at, our Muallam started taking children's classes. A non-Ahmadi child was also attending. One day that child's father, Abdul, who was not Ahmadi was performing ablution.

His 10-11 years old son told him that he was not performing the ablution properly and demonstrated the correct way before him and told him the ablution prayer as well.

**The training that we give to children also impresses the people.**

He was very happy that his child learned all that from the children's class. He further said that he was giving that child to the Jama'at for training as they wished.

After regaining health, I started going to the Ahmadiyya mosque to say prayers.

I got interested in the Jama'at after listening to the sermons and other speeches.

I read the books of the Promised Messiah (peace be on him) and was convinced that if there was a Jama'at is following the Quran and Sunnah of the Holy Prophet (peace be on him),

then it is only the Jama'at Ahmadiyya. So I did the Bai'at. Seeing me, my children also got interest in the Jama'at. So I did the Bai'at.

Seeing me, my children also got interest in the Jama'at. My son is studying in the secondary school.

I wish that after completing the secondary school, he gets admission in the Jamia Ahmadiyya and serves the faith after devoting his life.

By grace of Allah, the way the opponents are trying to impede our ways, He is providing means to stifle their arguments and increasing the faithfulness of the new converts.

These are a few incidents of Allah's blessings.

May Allah help us to always absorb His blessings and enable us to fulfil His rights.

The favour that God has done to us that He made us Ahmadi, He may grant us steadfastness in that and keep on raising our status in faith and belief. Ameen.
